

FHRAI seeks PM Modi's help for special relief package

Hospitality industry body FHRAI sought support from Prime Minister Narendra Modi for a special relief package for the tourism and hospitality sector to enable its survival, terming it as the most distressed sector due to COVID-19. Highlighting that the hospitality industry has reported losses of a whopping sum of Rs 1.40 lakh crore and around five crore jobs were lost due to the pandemic, Federation of Hotel & Restaurant Associations of India (FHRAI) said the fresh wave of the pandemic has compounded the problems and without adequate government support many more establishments in the sector would be compelled to shut shop.
