

Jakson Group Launches Jakson Green, Signaling New Green Reality

Jakson Group, one of India's leading energy and infrastructure company, has today announced its new venture Jakson Green Pvt Limited (JGPL).

Jakson Green Pvt Limited will focus on Green Hydrogen & Ammonia, Waste to Energy, Electrolysers and Fuel cells, Utility-scale Battery Energy Storage Systems(BESS), Solar and related Operation & Maintenance services across all these lines of business. This new venture is a testimony to the Company's increasing footprint and focus on sustainable growth in the renewable energy sector. For a brand that is indelibly linked to its presence in the captive power generation segment, particularly its ubiquitous diesel gensets, Jakson's renewed focus into what many consider the future of energy is a strong signal of the winds blowing across the sector.

One of the first steps for the firm, is an agreement that the Jakson Group has signed an agreement with a leading US-based fuel cell manufacturer for pursuing Hydrogen projects in India. With these new developments, Jakson Group has taken another key step towards energising its growth in the new era of rapid energy transition.

Since its beginnings in 1947, The Jakson Group has diversified from a Diesel Generator Manufacturing Organisation into an Energy Solutions Company, providing expertise in the fields of Distributed Energy, Solar Power, Battery Energy Storage System & Solar and Electrical EPC. The Company has an extensive presence throughout India with 4 manufacturing facilities, 30+ Sales Offices and a wide network of channel partners and dealers making it one of the top energy firms in India.
