

# **India HoReCa Expo 2026 to Host 30,000 Buyers**

India HoReCa Expo 2026 is set to emerge as a strategic B2B gateway for the hospitality and foodservice sectors. Scheduled from 1–3 July 2026 at the CODISSIA Trade Fair Complex in Coimbatore, the exhibition is expected to attract over 30,000 qualified trade buyers from more than 36 countries.

Organised by Synergy Exposures & Events India Pvt. Ltd., the event aims to reinforce India's position as a manufacturing, sourcing and export hub for hospitality solutions.

## **Showcasing India's HoReCa Manufacturing Ecosystem**

Located in South India's industrial corridor, the expo will highlight a wide range of hospitality and foodservice technologies, including kitchen equipment, bakery machinery, refrigeration systems, automation technologies, premium ingredients and end-to-end hospitality solutions.

The platform is designed to facilitate both import sourcing and export partnerships, reflecting India's growing influence in global HoReCa supply chains.

With hotel infrastructure expanding rapidly across Asia and the Middle East, demand for advanced kitchen technologies and guest-experience solutions continues to rise. The expo offers international suppliers structured B2B engagement and direct access to decision-makers across South Asia.

## **Driving Investment and Industry Partnerships**

The event will host participation from hotel groups, QSR chains, institutional caterers, procurement leaders and hospitality consultants. International buyers from the Middle East, Southeast Asia, Europe and SAARC nations are also expected to attend.

As investment flows into hotels, tourism infrastructure and MICE destinations, the expo provides suppliers and investors with a timely platform to evaluate technologies, secure distribution partnerships and align regional expansion strategies.

Industry professionals are encouraged to pre-schedule meetings and plan their participation in advance to maximise commercial opportunities during the three-day event.
