

NILE Hospitality Signs Seventh Hampton by Hilton Hotel in Navi Mumbai

NILE Hospitality has signed its seventh Hampton by Hilton hotel in India, marking its entry into the Mumbai Metropolitan Region with a 90-key property at Navi Mumbai International Airport. Expected to open in 2030, the hotel marks the company's first signed property in the Mumbai market and strengthens its presence in a key commercial and transit hub.

The signing builds on NILE Hospitality's strategic licensing agreement with Hilton to develop 75 Hampton by Hilton hotels across India. The global upper-midscale brand operates more than 3,100 hotels, with over 357,000 rooms across 46 countries and territories, and has a development pipeline of more than 775 additional properties.

Navi Mumbai's expanding commercial and industrial corridors, airport connectivity and growing business and leisure travel demand make it an important market for hospitality development. The upcoming hotel is expected to cater to travellers using the airport, as well as corporate and leisure guests visiting the wider Mumbai Metropolitan Region.

Vikram Singh Chauhan, Founder and CEO of NILE Hospitality, said the signing reflects the company's continued expansion with Hilton and its commitment to bringing globally recognised hospitality brands to India's growing markets.
